Devices

Our aim is to take the best aspects of virtual learning and integrate this approach to teaching and learning into our existing provision across the school. Therefore, Children in Years 5 and 6 are expected to bring in their own devices.

If you are considering purchasing a new laptop, we would suggest a Windows laptop is a sensible choice, but our systems work perfectly effectively with Apple Mac/ ipad and Chromebook owners. It is worth giving consideration in any purchase to battery life, weight and size of device as pupils bring these into school.

A typical configuration of laptop is:

- Windows 10
- Intel Core i5 processor
- 256gb SSD
- 8gb memory
